

TALK ABOUT READING

GOOD READERS ASK GREAT QUESTIONS!

Big Questions. Deeper Thinking. Brighter Readers.

Plot and Retrieval

Think about what happened in the text.

- Can you catch me up on **what happened** in today's reading?
- What was the **main problem** or event on these pages, and how was it handled?
- What do you think is going to **happen next**, and why do you think that?

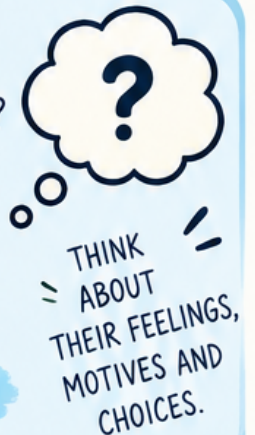

Character and Inference

Look beyond the words to think about the characters.

- Which character did you find the **most interesting**, and what makes you say that?
- Can you find **evidence in the text** that shows how a character is feeling?
- If you were in that character's shoes, would you have **made the same choice**?

Author Craft and Language

Explore how the author uses language to create meaning.

- Why do you think the author used that **specific word or phrase**?
- Did the author use any **italics, bold print, or short sentences** for a specific effect?
- Does this setting or plot remind you of **another book, movie, or real-life event**?

BETTER CONVERSATIONS LEAD TO BRIGHTER IDEAS.
